

Sequel: Rulebook Hub

Driving MGAs to better capital, bringing control
and governance to delegated underwriting

Sequel Rulebook Hub

A Cloud-based platform that connects insurers, brokers and MGAs for streamlined distribution. We see an insurer-hosted pricing solution, so that you can integrate products directly with your distribution partners.

We see how to unlock access to capital

- Bring control and governance to the delegated underwriting process, streamlining distribution
- Unlock access to previously unseen capital whilst reducing time and cost
- Quote and bind business in a matter of seconds
- React more quickly to market conditions by managing products in real time
- Access more data, providing greater visibility and control of business

A deeper view

Ensuring compliance

- Ensure integrity and auditability of records
- Greater control in managing delegated authority
- A genuine alternative to risk bordereaux
- Confirm risks are priced accurately and within the terms of their underwriting authority before binding

Optimising productivity

- Increases efficiency of transacting business
- An insurer-hosted pricing solution
- Rules and ratings integrated directly into broker and MGA systems

Enhanced features

- Products managed in real time
- Rules and ratings can be integrated directly into broker and MGA systems
- Store rating models for even the most complex delegated underwriting arrangements
